Specification

Description: Garden24 is our garden and outdoor lighting system that you can easily install and move around on your own. This lantern is in black aluminum and has a power of 3W which means that on a 36W transformer you can connect 10-11 pcs as we recommend that you do not fully switch on the power of the transformer.

We recommend: Do not forget the transformer sold separately and consider the power of the transformer. A 36w transformer can take a maximum of 10-11 3W lanterns. Find transformer and other accessories here.

Technical: The entire Garden24 is IP-rated with IP44 rated for outdoor use and this Lantern comes with a ground spear for placement in soil / grass.
