Specification

Description: Garden24 is our garden and outdoor lighting system that you can easily install yourself. Use this timer/light sensor to choose how long the lighting should be on. If you set the timer to 00, the lighting will come on at dusk and go off at dawn.

We recommend: The timer/sensor must be connected before the lamps but after the transformer so as to control all of the lamps.

Technical: Garden24 is IP44 rated for outdoor use.
