Specification

Description: Wall lighting is perfect beside your bed or to provide lighting if your sofa is against the wall. The Larry wall lamp has a built-in dimmer and can be rotated 180 degrees to the right and left. Available in semi-matt brass or chrome, as well as the new white Larry it comes with a two metre flex. The entire Larry series is designed by Monika Mulder.

We recommend: Tailor the light source to where you are going to put the lamp.

Technical: Larry has one bulb holder and uses an E27 light source (wide cap). Use a maximum 60 Watt incandescent bulb; or the equivalent in halogen, low energy or LED.
